Searching back through the friends I've known
Sometimes sad for the way it's grown
Ranging up and ranging out
And trying to change my ways about
There's a place in the leaf, a place in the bough
Found a place for me just now, just now, just now
Moving on with every word
Moving with all the words I've heard
Turning the wheel as fast as I can
Turning the wheel to make me a man
There's a man in the moon, a man in the sun
Growing strong, there's a man in me just now, just now,
just now
No behind and no before
There's no need to worry any more
Happy then, happy now
There's always a way to get happy somehow
Friend on the road, a friend in the home
A better friend now than I've ever known just now, just
now, just now
Searching back for the friends I've known
Sometimes sad for the way it's grown
Changing up and ranging out
And trying to change my ways about
