

John Martyn "Go Easy"

Visit "[Go Easy](#)" on MotoLyrics.com

Looking at me, never find out what a working man's
about
Raving all night, sleeping away the day
Something to ask, something to say, something to
keep the pain away
Something I'd like to see if it's alright

Life, go easy on me
Love, don't pass me by

Spending my time, making ?a chime? and I'll throw
away the rest
Looking for ways to ?...? and ease my mind
Something I need, something I plea for, something I
have to say
Something to keep me safe when I'm away

One way for me, one way for you, one way for all of us
To get back home, do whatever we want to do
Nothing to tell you, nothing to show, nothing that you
don't know
Something to play, something to say for now
