Me and my children  
Together once in a while  
We go walking and talking  
Seeing them smile and  
Run and play  
Reading their minds  
Ever growing wiser  
What to do  
We'll go to the zoo  
Right now

Lions and tigers are eating  
Don't care that we stand and see  
As we pass by their bars to the next attraction  
The horses the birds in their cages  
Such a shame they can't be free  
Like me and my children

Me and my children  
So happy in the times that we ride in the day  
And at night there's always a meal and a show  
And then we go to the point where we say  
Farewell to remember  
When I go my love stays  
With the children
