Yeah, it hurts yeah it hurts
The poison"s gonna cramp my style
Stand back baby, Love will have to wait awhile

You can see, you can see
My rocket"s gonna hit the ground
Stand back baby
Love will have to wait around

Yeah it makes me laugh, and it makes me cry
I need a shot to keep me dry
Stand back baby
Love will have to say goodbye

Yeah it makes me laugh and it makes me cry
I need a shot to keep me dry
Stand back baby
Love will have to say goodbye
