Dissatisfaction all around  
The world is shifting under ground  
Why unemployment, where can prosperity be found?  
Unanswered questions that run thru my mind and bring  
me down.

Why this country has to fight?  
What foolish reason makes me cry?  
Killing is atrocity, why can't the worldwide governments  
see the light?  
Unanswered questions that seldom ever settle  
overnight!

(SOLOS)

People, this trial makes me burn  
Well, here seems saner to retire  
Sometimes the world makes me feel like there is no  
one left to tame  
Unanswered questions show me the truth so I can learn
