Time's gonna come, you'll want me back someday
Time's gonna come, want me, want me back someday
But you are evil woman, you don't mean me no good at
anyway

You was blind to me, baby, I give you all I can
You was blind to me, baby, but still I give you all, all I
had
But you, b-b-but you are evil woman, I'm a strong man

You caused me so much trouble, I don't wanna see
your face no more
You caused me so much trouble, don't wanna see your,
your face no more
'Cause you are the evil woman, don't want you hangin'
'round my door
