"Key To Love"

I never realized that you were in pain
I wanna help you honey, let me see you again

Hurts my soul, babe, when I find you feeling rough
Life is so bad, baby, when I find the key to love

Put a smile on your face and dry away your tears
Life is bound to get better as you live your years

Hurts my soul, babe, when I find you feeling rough
Life is so bad, baby, when I find the key to love

Somewhere in this world, the one you waited for
Come along and find you turn the key, your door

Hurts my soul, babe, when I find you feeling rough
Life is so bad, baby, when you find the key to love
