Dissatisfaction all around
The world is shifting under ground
Why unemployment, where can prosperity be found?
Unanswered questions that run thru my mind and bring
me down.

Why this country has to fight?
What foolish reason makes me cry?
Killing is atrocity, why can't the worldwide governments
see the light?
Unanswered questions that seldom ever settle
overnight!

(SOLOS)

People, this trial makes me burn
Well, here seems saner to retire
Sometimes the world makes me feel like there is no
one left to tame
Unanswered questions show me the truth so I can learn
