"Portable Heart"

Visit "[Portable Heart](#)" on MotoLyrics.com

Today was hard but I've made my way
And I've found the strength to say
That I don't belong and I'm holding on

And I smile, I yawn, I play along
But all I know by now
Is you don't belong and I'm holding on

CHORUS

You know I really can't take this place
I've got to shuffle up all this scenery around me
I'm never finishing what I started
Oh I was born with a portable heart

There was a flight that left tonight
And lived for the dawn that I should've been on
Cause I could've been gone and asleep already

CHORUS

You know I really can't take this place
I've got to shuffle up all this scenery around me
I'm never finishing what I started
Oh I was born with a portable heart
Oh I was born with a portable heart

You know I really can't take this place
I've got to shuffle up all this scenery around me
I'm never finishing what I started
Oh I was born with a portable heart
Oh I was born with a portable heart
Don't you know I was born with a portable heart

I was born with a portable heart

I smile, I yawn, I play my song
But all I know by heart
Is that I don't belong
