I've ridden down Sunset
I drank expensive wine
I've been married 2 dozen times
Raised ten children on a workman's pay
And I'm glad to say I've enjoyed everyday
Of the full catastrophe of life

I've sat in courtrooms
had people call me names
I've been to London town
On a supersonic plane
I was lovin' your wife
While you were lovin mine
And I'm glad to say i've enhyoyed everyday
Of the full catastrophe of life
I've opened my belt to trouble everyday
Ain't looking for a fight
But you know I won't run away
From the full catastrophe of life

I've seen the goodness
I've known the baddest around
I was tatoood when it first came out
I shook the hand that showed Moses the way
And I'm glad to say I've enjoyed everyday
Of the full catastrophe of life
