Turn on the radio, turn on my T.V
They're talkin' 'bout war, they're talkin' 'bout peace
Talkin' 'bout you, talkin' 'bout me
The way we ought to act, yeah, the way we ought to be
They talk about stars and the latest styles
They don't talk about much that seems worthwhile,
meanwhile

Me and my baby slip under the covers
Get away from the world and whatever other stuff is
Goin' on and start to workin' on
A little heart to heart an' mouth to mouth
Thats what I'm talkin' about

All of our neighbors and most of our friends
They talk about Tiger, who's out and who's in
American Idol and who's gonna win
Now they'll talk about politics with their own little spin
Let 'em have their opinions, let 'em speak their minds
Let 'em talk about the weather 'cause come rain or
shine

Me and my baby slip under the covers
Get away from the world and whatever other stuff is
Goin' on and start to workin' on
A little heart to heart an' mouth to mouth
Thats what I'm talkin' about

Me and my baby slip under the covers
Get away from the world and whatever other stuff is
Goin' on and start to workin' on
A little heart to heart an' mouth to mouth
Thats what I'm talkin' about

Ahh, you know what I'm talkin' about
Little huggin', little kissin'
Little chasin', little catchin', lotta lovin'
Oh yeah, that's what I'm talkin' about
I'd like a candle on me honey
