Do us in always,
We can see but it don't matter,
Every noon day
Taking time to make it better.

Livin' like a head in the cloud
Always feeling so proud
But we would never make it.
Even when we're going no where,
I remember you didn't care to say

We'll do it all again,
With loving so strong
We've got to be wrong.
Do it all again,
There's no reason to hide
Got the feeling inside
Don't change your mind.

Do it together
No more reason for the *****
Sometime, never.
Lose it all until tomorrow.

Feeling like we did at the start
And when its falling apart
Gonna be lonely, lonely
Even when the novelty's gone
And we know we gonna part today

But we'll do it all again,
With loving so strong
We've got to be wrong.
So do it all again,
There's no reason to hide
Got the feeling inside
Don't change your mind,
We will find
One heart breaks
We'll make the same mistakes
But we'll do it all again,
With loving so strong

We've got to be wrong.
So do it all again,
There's no reason to hide
Got the feeling inside
Don't change your mind,
We will find
A love.

Yes we'll do it all again,
With loving so strong
We've got to be wrong.
So do it all again,
There's no reason to hide
Got the feeling inside
Don't change your mind,
We will find
One heart breaks,
We'll make the same mistakes

But we'll do it all again,
With loving so strong
We've got to be wrong.
So do it all again,
I said one heart breaks,
We'll make the same mistakes.
Do it all again,
I said we've gotta be strong,
Gotta be strong.
So do it all again,
Do it all again,
With loving so strong
We've got to be wrong.
So do it all again,
So do it all again
