I need your love, I need your love.  
I need your love, I need your love.

Some times I feel lost and I don't know what you  
believe.  
My wires get crossed, and I wonder how you could  
leave.  
But one thing I know, I just can't go on living from day  
to day,  
Won't you listen to me when I say,  
I need your love?

I need your love,  
Oh won't you believe me?  
I need your love,  
For every time I close my eyes to sleep, you'll still be  
there.

And I get so afraid when the night closes in on me,  
I thought that we had it made, from now on its just a  
memory.  
I wake up at night calling your name, no body hears but  
me.  
I've just got to try to make you see  
I need your love.

I need your love,  
Oh won't you believe me?  
I need your love,  
Cos every time I close my eyes to sleep, you'll still be  
there.

I wake up at night just calling your name, no body  
hears but me.  
I've just got to try to make you see  
I need your love.  
I need your love,  
Oh won't you believe me?  
I need your love,

Cos every time I close my eyes to sleep, you'll still be  
there.

And I'll be waiting for you.  
I need your love,  
I need your love.  
I need your love,  
Cos every time I close my eyes to sleep, you are still  
there.

And I'll be waiting for you.  
I need your love,  
I need your love.  
I need your love,  
Cos every time I close my eyes to sleep, you'll still be  
there.

And I'll be waiting for you.  
I need your love,  
I need your love.  
I need your love,  
Oh, you are still be there.

And I'll be waiting for you.  
I need your love,  
Won't you believe me .....
