Ooh! It sounded good to see the boys for an evening,  
One drink and then I must go home,  
I had another then I said I'd be leavin'  
One more and then it all went wrong.

So where the time had gone I just don't remember,  
I thought the night was just a change in the weather,  
I knew that you would want to leave me for ever,  
But what could I do now?

I made it home to see the start of a new day,  
Can't sleep with nothing standing still,  
I'm feelin' sorry but it's too late anyway,  
Won't change me but the next time will.

I close my eyes and then the world started spinning,  
I have to tell myself that I'm really livin',  
And then your face appears but there's no forgivin'  
There's nothing I can say, hope I haven't thrown it  
away.

I'll never do it again, that's the last time,  
Don't shake your head, say that you believe me,  
I'll never do it again, oh what a fool I am,  
Don't walk away, girl I'll never do it again.

I started working on an old song for Rosie,  
My mind was only half-way there,  
She came to my house and you know what she told me,  
Slow dancin' in my easy chair.

I always knew one thing could lead to another,  
It didn't mean a thing but now that it's over,  
I took a chance I thought you'd never discover,  
Oh why I'll never know, now you say you're letting me  
go.  
I'll never do it again, that's the last time,

Don't shake your head, say that you believe me,  
I'll never do it again, oh what a fool I am,  
Don't walk away, let me tell you something.

I'll never do it again, that's the last time,  
Don't shake your head, say that you believe me,  
I'll never do it again, oh what a fool I am,  
Don't walk away, I'll never do it again.

I'll never do it again, that's the last time,  
Don't shake your head, say that you believe me,  
I'll never do it again, oh what a fool I am,  
Don't walk away, let me tell you something.

I'll never do it again, that's the last time,  
Don't shake your head, say that you believe me,  
I'll never do it again, oh what a fool I am,  
Don't walk away, please believe me.

I'll never do it again, never do it again,  
No, no, no, I'll never do it again, never again,  
I'll never do it again, no, no no.  
No, no, no, I'll never do it again, never again,  
Never do it again, I'll never do it again, never again  
I'll never do it again, never  
Say that you believe me,  
I'll never do it again, no, no no.  
No, no, no, I'll never do it again, never again .....
