I saw the light, I watched it ignite.
Oh, what a sight, it was holy.
Temptation came,
My fortitude waned.
I caused you pain and only
For the sake of one.
I never even gave any love
Like I've given to you, baby.
And there's so much I got to say,
But tell me how does a man ask for forgiveness
When the one he loves
He left so far away?

It's not over, no,
It's not over yet.
Yeah, we'll put all this pain behind us,
Recover and start again, come on.
It's not over, no,
It's not over yet.
Sweet forgiving rain, wash away my shame,
Let the clouds roll by
And reveal a brighter day. Yeah.

I know the blame is over my name
But I can change, if you let me.
My only wish is that you understand this,
I miss no less than everything about you, babe.
And I know I can turn it around
But tell me how does a man start his life over
When the one he loves
Won't let him share the same ground. Yeah.

It's not over, no,
It's not over yet!
We'll put all this pain behind us,
Recover and start again, yeah.
It's not over, no,
It's not over yet.
Soft forgiving rain wash away my shame
Let the clouds roll by
And reveal a brighter day
Let's not let it slip away.

Give me just one more, one chance, one day.
Come on, baby, have a little faith in me.
I saw the light, I watched it ignite.
Oh, what a sight, it was holy.
And there's so much left to say
But tell me how does a man ask for forgiveness
When the one he loves is so far away.

It's not over, no,
It's not over yet.
It's not over yet.
We'll put all this pain behind us,
Recover and start again, come on.
It's not over, no,
It's not over yet!
It's not over yet.
Let the sweet forgiving rain wash away my shame
And reveal a more brighter day.
Delay the rain. Yeah.
It's not over, no,
It's not over yet.
It's not over yet!
But put all this pain behind us,
Recover and start again, come on.
It's not over, no,
It's not over yet.
It's not over yet.
Let the sweet forgiving rain wash away my shame
And let the clouds roll by, reveal a brighter day.
It's not over, no,
It's not over yet.
It's not over yet. It's not over yet. It's not over yet.
Come on baby.
It's not over, no,
It's not over yet!
It's not over yet.
Let the sweet forgiving rain wash away my shame
And let the clouds roll by, reveal a brighter day
