I'd travel the world just to touch you
While finding my way, I'd make no mistakes
I'd travel through time just to feel you
Cause you make me believe I can do anything
And through all these storms I will find you
I'll fight my way back, isn't it what you'd do?
If I have to walk on broken glass
If I have to fall on solid ground

I just realized
If I can't feel you
Then I can't feel me anymore

So find me tomorrow
Find me right now
I just need to hold you now, more than ever
Try to hold it together
Could it be any better?
I just wanna hold you now, more than ever

See making sense is not my thing but let me tell you
That you're the only thing that makes sense to me
Your gravity is making me a little unstable
But I won't crack, not yet anyways
So go ahead and call me misguided
But the clues that you left, led me right to you
So go ahead and call me anyways
Cause you know that you want to, you know that you
want

I just realized
If I can't feel you
Then I can't feel me anymore

So find me tomorrow
Find me right now
I just need to hold you now, more than ever
Try to hold it together
Could it be any better?
I just wanna hold you

I never wanna see the end of it
Never wanna have to let you go
Got to find my way back to you
Holdin' on to everything you do
I'm trippin' over every word you say
I can't take my hands off you
And I could find a way
Could find my way
If only I could find a way back to you

So find me tomorrow
Find me right now
I just need to hold you now, more than ever

Find me tomorrow
Find me right now
I just need to hold you now, more than ever
Try to hold it together
Could it be any better?
I just wanna hold you now, more than ever
I just wanna hold you now, more than ever
