Well i can't believe my eyes  
Is there anybody standing here?  
Or tell me am I blind?  
Is there anything I'm missing out?  
What's this all about  
Is there anything I could have said?  
So you could stay in here  
We could slowly dance and maybe just drift....away

#### CHORUS

Cause I'm giving you everything I am  
I just figured out I'm half way there  
Cause I'm giving you everything you need  
I just figured out I'm half way there

There are weaks and those who try  
Is there any truth between the lines (between the lines)  
Or tell me am I out of line?  
Cause there's only you that makes me shine  
Now this is who I am  
Is there anything I could have said?  
This is who I wanna be  
We could take this moment and we could drift away

#### BRIDGE

You come and you go  
Though I'm burning when you're here  
You laugh and you breathe  
You're a human mystery  
I'm standing here  
But I'll be moved by you  
So I'm giving you, giving you everything I am

Cause I'm giving you everything I am
