What should I do?
What should I say?
All that I know
Is that I want you here
The ocean's won't flow
When you're not around
The silence won't fade
Until I hear your voice

For all the moments that I needed you
For all the pain that you put me through
For all those reasons you were apart of me
I wish you could find
A reason to stay

I wish you could feel
I wish you could see
God, I wish you would stay for one more day
The bridges will burn
The angels won't sing
But the broken will see
What's it's like to feel

For all the moments I needed you
For all the pain you put me through
For all those reasons you were apart of me
I wish you could find
A reason to stay

Where are you now?
I just want to believe
I don't know where to go
Oooohh
I'm standing on the edge
I don't where to run
A reason to stay

For all the moments I needed you
For all the pain you put me through
For all those reasons you were apart of me
I wish you could find
A reason to stay

I wish you could find
A reason to stay
I wish you could find
A reason to stay
I wish you could find
A reason to stay
I wish you could find
A reason to stay

For all the moments I needed you
For all the pain you put me through
For all those reasons you were apart of me
I wish you could find
A reason to stay
