When I found out
We could only understand some little parts of us
When I got that
I could only make a scene or make the best of it
The scheme of things got complicated
Like I said I'll make the best of it
To make it seem like it's so damn perfect
We could try to make the most of it

Well I said

Most of us have everything we'll ever need
Most of us make promises that we can't keep
Most of us will fall down till they've reached their knees
But we make the best of it

As I grew up
I could only try to fit in with the best of us
But god was I wrong to seek for acceptance
We've made our mistakes
But never in vain
As we seek for redemption
We trip and we fall

Most of us have everything we'll ever need
Most of us make promises that we can't keep
Most of us will fall down till they've reached their knees
But we make the best of it

If we get there on time
We're gonna make things right
So all we can do is keep on trying
As we gather our strength
And fight for ourselves
All we can do is keep on walking

Most of us have everything we'll ever need
Most of us make promises that we can't keep
Most of us will fall down till they've reached their knees
But we make the best of it

Most of us have everything we'll ever want
Most of us need comfort that we can't provide
Most of us will fall down till they've reached the ground
But we make the best of it

But we make the best of it
Gonna make, gonna make the best of it
If we make the best of it
