Take your place in time
This is where you want to be
Don't look beyond today's horizons
Free your mind completely
Let it in and let it out
Don't think about what may be
Breathe it in and breathe it out
This life is what we make it
It'll feel so surreal
These moments you thought you had lost
Are here and they're really taking over
It'll feel so surreal
These moments hidden in your dreams
Are here and they're really taking over
Trust me, you'll do fine
Let go of conversations
That take up space and time
You could be spending on creating
Something special, something kind
Intimate and pleasing
Breathe it in, don't press rewind
Just go ahead and save it
It'll feel so surreal
These moments you thought you had lost
Are here and they're really taking over
It'll feel so surreal
These moments hidden in your dreams
Are here and they're really taking over
