"Don't Play Your Role"

You were born with the power
To do what you want to do with your life
The choice has been, and will always remain up to you
Restore that power and take back your fucking life
Don't waste another minute

Don't have to choose to play their roles
Their choice is no choice at all
When we stop playing the roles we're given
Their hierarchy and system will fall

You were born with the power
To be the person you choose to fucking be
So why do you give that power to someone else, and
give away your life
To a bigoted politician or fucking cop, parents, schools,
or boss
