Somewhere in your mind I fear  
there's some place you have never been.  
Welcome to the strangest place  
You've ever been a stranger in.  
Dreams might give you a clue.  
Close you eyes it's here for you.  
But everybody's crazy here in Wonderland  
You have to be a bit insane.  
To sit and watch a house fly away and play  
Beside a field of sugar cane.  
Call it crazy if you please,  
We're as happy as can be.  
Cause everybody's crazy here in wonderland,  
you simply won't believe your eyes.  
Cause if you've never been you'd never understand,  
you couldn't in a million tries.  
You'll see some combinations no one ever sees,  
there's nothing even normal about a swarm of bees,  
and I sure hope I can get back to wonderland.  
I sure hope I can get back to wonderland.  
(I sure hope you can get back to wonderland.)  
I sure hope you can get back to wonderland.  
Come back to wonderland.  
(Come back to wonderland.)  
Come back, come back,  
(Come back to wonderland.)  
(Come back to wonderland.)  
(Come back to wonderland.)  
(Come back to wonderland.)  
(Come back to wonderland.)
