It's very in these to say that true love won't come
anyway,
So it's easy if you and I pretend that love is just a lie,
But since I've known you I can see that less than loving
is not for me,
It scares me so to feel this much, but if you tingle at my
touch,
Better run before it's Spring if you don't want your
heart to sing,
Better run while there's still time before our feelings
speak in rhyme,
Love can't hide while the sun shines bright, leaves can
open overnight,

Fair warning signs are out my love so stop or be runout
my love,
And if you don't want to fly this high you better run, just
say goodbye,
For if you don't want your heart to sing, better run
before it's spring,
If you don't want to don't want to fly this high, you
better run, you better say goodbye,
For if you don't want your heart to sing, you better run
before it's spring,
You better run before it's spring
