

## Career Soldiers "Consume"

Visit "[Consume](#)" on MotoLyrics.com

Every product you buy, do you know who you've supported?  
Ever dollar spent, do you know who you've exploited?  
Every dollar spent compounds capitalist tyranny  
Putting worker and consumer into slavery

Buy more shit you don't need  
Support the oppressive economy  
Buy more shit you don't need  
To remain content in this society

Work, consume, sleep, and repeat  
We are all slaves to this consumer society

Work, consume, sleep, and repeat  
No product they sell you can make your life complete

We buy into the belief that materials make us whole  
But we want so bad to find the purpose that they stole  
There is no meaning in something you can buy  
Don't support this materialist culture, don't swallow their lie

They steal our lives, steal our time, and sell it back to us  
I will not consume
