Society doesn't give a fuck about me
Turned me into a commodity
Told me I was worth nothing
Then they told me that I was free
Don't give a shit about what I have to say
Turned their backs and looked the other way
Pushed me into fucking dismay
You promised me a future, but not today

Dead end youth
Is here to stay, society doesn't care about me anyway
Dead end youth
Got nowhere to go, heading down the wrong road

Dead end youth going nowhere fast, this generation
won't be the last

I look around my city there's no hope for us
No where to turn no one to trust
I cannot believe these fucking lies

Told by my school which I despise
Born into a system without any choice
The authority trying to quiet my voice
I don't know what to do with myself any longer
Each day I resist I become stronger

"Son you're an embarrassment, a fucking disgrace
Look at your life it's going to waste
You sure as hell are going nowhere fast
Time to strive for a real future, one that will last
You're young and you don't know anything
The doors for a real future are quickly closing
Get on your knees it's time to start kneeling"
Fuck you, I'll keep on screaming
