Hole burned into the sky
Next to nothing into it you fly
Turn around found no narrow escape
Stuck inside burcratic red tape
Look towards the white light of desire
It's a trick in hell there's only fire
Pain and suffering is good for your well being
Turmoil and anguish is all you're seeing
Breathing arsenic and death sute into your lungs
That fat bitch has already sung
Your doom is a flaming corpse chard and scorched
You pissed them off and you got torched
Seems your opinion of life's rewards was off set
As you sit as Bealzabub's Pet
Bark...Bark...Bark...Bitch
Bark...Bark...Bark...Bitch
Bark...Bark...Bark...Bitch
Bark you fucking dog
A g rated cartoon plays your twisted tune
A personal hell at the sanatarium
Blah Blah Blah you bite off your tongue
Hells bells have been rung
Another dose
Another pill
Another image, another 24 to kill
Another weak sister, another mind twister
Another overdosed, comatose, ego strungout star
Welcome my fools to the Dark Half
On my time you shall never laugh
Never be happy
Never show feelings
Who dares to rise before me, on your knees dog
Start kneeling!
Treachery and tricky, a theme, a scheme
A Master of illusion
Have you come to this conclussion?
Wait!
You're gonna die, be born, die, be born
DIE!
I don't even want to hear your cries!
Welcome my friend to your hell that never ends

The Dark Half you shall be sent
Into a bubbling cauldron
Save the children
Hell awaits, evil dominants
A submissive society which bows down
And feeds the Dominant Man around town!
