

## Career Soldiers "Together We Shout"

Visit "[Together We Shout](#)" on MotoLyrics.com

When all you have is ignorance it's like screaming at a wall

The greed and the lies seem to be standing so tall  
They say we'll change nothing, I will never give in  
Keep fighting together we can win

My voice will be heard  
Break down these walls of tyranny  
Our voices will be heard  
No difference between you and me  
I will not live in society's restraints  
It's time to set ourselves free from the hate  
We weren't put here to live our lives enslaved  
Problems everywhere it's time we make a change

OI! OI! OI! Together we shout

No difference, between you and me, keep fighting,  
together we shout
