Maybe it's not okay to smile
At anything you happen to be (?)
Maybe it is too late for a trail
Or maybe it's just too late for me

Just don't go to sleep
Don't go to sleep
I need you to be here looking after me
Just don't go to sleep
Don't go to sleep
I need you to be here

Maybe your time is too much to ask
But don't feel required for me
Maybe my wheels are stuck too tight to turn
But never (?)

Just don't go to sleep
Don't go to sleep
I need you to be here looking after me
Just don't go to sleep
Don't go to sleep
I need you to be here

Everyone who is living should know
That a boy once cried wolf long ago
Then they found pieces of him in the snow
And that's why they lived eternity (?)

Just don't go to sleep
Don't go to sleep
I need you to be here looking after me
Just don't go to sleep
Don't go to sleep
I need you to be here
