I don't want to be in your service  
I just want to make your short list  
I don't want to wear all your armor  
I just want to be in your chest  
Always keep me in your heart

I don't want to take you for granted  
I don't want to pay all your debt  
I don't want to be your light shining  
I just want to be in your eyes  
Always keep me in your sight

I don't want to be your perfect summer  
I want to be there when the winter's in sight  
I just want to be the record you play  
When you come home to sleep at night  
Always  
Always  
Always  
Alright

I don't want to be your ambulance  
I don't want to be your twisting vine  
I don't want to take out your stitches  
But I'll whisper to you all night  
Always  
Always  
Always  
Alright
