Oh Lord I wanna go back home
Out there beneath the stars and night
I never wanna see this place again
I wanna walk out in the western light

This won't break me
The worst is over now
No this won't break me
No, this won't break me down
Every storm has a shelter and you're mine right now

There's an ocean, there's an endless ocean
Violent boulevards and avenues
Bad vibrations coming through my speakers
Still, I'm gonna find my way to you

This won't break me
The worst is over now
No this won't break me
No, this won't break me down
Every storm has a shelter and you're mine right now

This won't break me
The worst is over now
No this won't break me
No, this won't break me down
Every storm has a shelter and you're mine right now
