"Pretty Little Heart"

Visit "[Pretty Little Heart](#)" on MotoLyrics.com

You've got a pretty little heart
But that's glass you keep it in
If it's cracked it's gonna break
And the locks are worn and thin

You've got a heart
The kind of heart I haven't seen in someone
You've got a heart
The kind of heart I hadn't seen in so long
I wanted you before I knew I wanted you

You feel so good to be around
Yeah, who could ever let you down
I fought with hope and faith and trust
Before I ever came to love

You've got a heart
The kind of heart I haven't seen in someone
You've got a heart
The kind of heart I hadn't seen in so long
I wanted you before I knew I wanted you

I wanted you before I knew
I wanted you before I knew
I wanted you before I knew I wanted you
