"White Beaches"

Visit "[White Beaches](#)" on MotoLyrics.com

Just before the headlights break into the gloaming
I will put my feet down
One after the other
Roaming round the old white beaches

I won't waste my time here
I don't know why I'm wrong
I just can't get my head right though I've tried for so
long
Roaming round the old white beaches

Looking for a better reason than the ones I've seen
myself

I can't get my head right
I don't want to show you

I can't get my head right
I don't want to show you

I can't get my head right
I don't want to show you

I can't get my head right
I don't want to show you
The old white beaches
I'll be back before too long
