Stay close with your sweet heart
Stay low
Hang up your harp
I never wanna be alone or without you
I never wanna be alone or without you

Wild horses in the summertime
In a field that storms surround
Can we be like that forever?
Can we ride it out?

Signs cease and wonders stall
Nothing here is new and after all
I never wanna be alone or without you
I never wanna be alone or without you

Wild horses in the summertime
In a field that storms surround
Can we be like that forever?
Can we ride it out?
