They've got me pinned against the wall  
It's political and predictable  
Anything you say will be exaggerated and completely  
blown out of proportion  
Ignore them if you can but I doubt you will  
They're out to control how people feel by pushing their  
agenda on your sub-conscience  
While you're unaware they start the brainwashing  
process  
Time to call out the unwilling  
The ones who need to be cut deep in order to have  
feeling  
You're not used to facing opposition  
You've done all the talking now it's time to listen  
I understand you want to make a difference  
Well you can start by sticking to your own business  
You're an entertaining man trying to be a politician  
Stop abusing your position

(chorus)

Follow him follow them follow me follow you follow who  
Follow your leader  
Do you even know what you're buying into  
Before you follow your leader  
It's the blind leading the blind  
Don't be so eager to follow your leader  
Know the truth before you try and turn me into a  
believer  
And make me follow your leader

Conservative uptight right wing republican

Last time I checked I was none of them  
But that's the brush you want to paint me with taint me  
with  
Some aim to please but you aim and miss  
ADD maybe, but I can't tune you out  
I would change the station but your signal's too loud  
And you're too proud to realize you're a moron  
Defend what you want whether it's right or wrong  
And this applies to both sides of the equation  
Arrogant men in power sure are frustrating

On a pedestal you hear them ranting and raving  
Proudly proclaiming what they know nothing about  
I hear you talking loud but I will not allow  
Tinsel Town to show me how to run my life  
Sure you can sing and dance  
But that don't mean that you're qualified to give  
America advice

(chorus)

There's a snake bite in America's skin from predators  
looking for causes to sink their teeth in  
There's a snake bite in the church's skin from  
predators looking for causes to sink their teeth in  
There's a snake bite in the media's skin from predators  
looking for causes to sink their teeth in  
There's a snake bite in the youth of America's skin
