Yeah let's get things off and running
All my people look so stunning
I'm so glad that you could make it tonight
Looks like we got a packed house
We're gonna have to rip the back out
I'm so glad that you could make it tonight
You feel that energy building
The atmosphere is so appealing
I'm so glad that you could make it tonight
You can be yourself if you're willing
It's such a beautiful feeling
I'm so glad I'm so glad I'm so glad
Hey hey

(chorus)

Do you want a little more well alright
I'm feeling you
Do you want to make the most out of life
I'm feeling you
Are you bored of the same same old night
I'm feeling you
Each day same day so long goodbye I'm not feeling
you

Are you feeling into it (yes)
Are you feeling interested (of course)
Well meet me at the show seating is unlimited
Never know what's gonna happen
Mr. Zappin's got big ideas

Life goes by in the blink of an eye
We're gonna take it for all it is
That's just the way it is since the beginning
We've been sending signals out in hopes to contact
those
who are low and show signs of fear and doubt
Make believers out of skeptics
You bet it gets hectic but heck if you get it like
suggested
Then I guess it's worth all the work invested just to see
you connected

(chorus)

One two three four get yourself on the dance floor
Five six seven eight everybody participate
Nine ten eleven twelve o' clock and all is well
You've got to inhale nice and slow now exhale and let it
go
We're way into the A.M. and we ain't got no place to be
Than right here right now so let me feel your energy
Let's do it so run away with it
Nowhere to go so stay with it
Find your rhythm and sway with it
Don't act like you weren't made for it

(chorus)
