Put it out there ask for it  
Adamantly passionate  
With a fist in the air like an activist  
Ya'll need a little bit of happiness  
The world's mad enough as is  
You want realistic? This is  
Entertainment we decorate it  
We can hide away and make a day of it  
Got a lot of information  
What good can you do with it  
Telling us what the real world isn't doesn't make you  
any more in it  
I believe good things can happen  
Sing along as the world's collapsing  
Crack a smile in good fashion  
Take a break from the action

Universal  
It's a small world  
Cosmic meltdown  
Dress is formal

Universal  
Find eternal  
Cosmic meltdown  
Dress is formal

Ya'll need to move to it  
Do it don't play stupid  
You get your hands in the atmos  
Go on ahead and clap those  
This goes out to those who know how to let go and  
enjoy the show  
From down the road to around the globe  
What little we know I'm willing to let go breathe slow  
Optimist in a mosh pit

Sit down on top of the world with a good view to watch  
it  
Organize the chaotic  
Talk to God like it's obvious  
None of which consists of politics or the apocalypse

Universal  
It's a small world  
Cosmic meltdown  
Dress is formal

Universal  
Find eternal  
Cosmic meltdown  
Dress is formal

The night is yours to enjoy  
Give us what we came here for  
Love builds pride destroys  
Lift your voice and make some noise  
Picket signs protest justice for the oppressed  
It all feels pretty hopeless  
Take a moment to catch your breath  
Feet on the floor  
Music in the air  
Reality will still be there for you when the song is  
through  
Twenty four seven breaking news  
This just in but I'm not paying attention  
Ignorance isn't bliss but taking a break from it is

Universal  
It's a small world  
Cosmic meltdown  
Dress is formal

Universal  
Find eternal  
Cosmic meltdown  
Dress is formal
