The stars are so close
We could touch them
The night air is soft and still
The world has stopped turning
Outside our door
Your kiss is all that's real

And it's just like the first time I touched you
The feeling is still oh so right
If I didn't already love you
I'd fall in love tonight

The love that I feel goes unspoken
Cause I see that look in your eyes
You slip from my arms just long enough
To turn out all the lights
And it's just like the first time I touched you
The feeling is still oh so right
If I didn't already love you
I'd fall in love tonight

Yes it's just like the first time I held you
The feelin' is still oh so right
And if I didn't already love you
I'd fall in love tonight
Oh I'd fall in love tonight
Tonight
