

## John Schneider "The Real Deal"

Visit "[The Real Deal](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I kept puttin' it off like I always do  
Had one clean sock but a man needs two  
So I drove on down to the wash and wear  
I swear it was 110 in there  
She was foldin' her clothes by the Coke machine  
Hottest thing I'd ever seen  
Cotton dress clingin' to her like a glove  
It took all of a minute to fall in love

I'd have bet you a hundred that I'd never find  
That one in a million that one of a kind  
I was standin' still spinnin' my wheels  
When I came face to face with the real deal

You're gonna need some help she said with a smile  
Or boy you're gonna be here a while  
If you'll pay for dinner we'll call it square  
I took her hand and she took it from there

I'd have bet you a hundred that I'd never find  
That one in a million that one of a kind  
I was standin' still spinnin' my wheels  
When I came face to face with the real deal

Love's gonna do what love's gonna do  
You can't make love happen to you  
I was lookin' too hard for a love that's true  
When the real deal came out of the blue

I'd have bet you a hundred that I'd never find  
That one in a million that one of a kind  
I was standin' still spinnin' my wheels  
When I came face to face with the real deal

Now I know how good it feels  
To come face to face with the real deal
