1st Verse
Winning Daytona
Is every drivers dream
Takes the right combination
Between man and machine
When they fire up their engines
And they finally go green
The one they fear most
The black number 3
Chorus
When he raced he always
Gave it his all
The whole world was watching
When he hit the wall
The word spread fast
But no one could believe
That the race had ended
For the black number 3

2nd Verse
Like him or not
(spoken) He was the man
He held 7 titles
Had thousands of fans
Now the intimidator's
(spoken) Took his last ride
To that big winners circle
At the track in the sky
Repeat Chorus
Once
Bridge
Nascar fans
All will agree
There'll never be another
Like the black number 3
No there'll never be another
Like the black number 3
