Looking out I see
And I know just how much you're a part of me
I see you and I, together in life
So there's nothing I wouldn't do,
To make you my wife.

(Chorus)
Won't you give me forever to show
all of the love I have here for you.
And if you give me my reason for living
To love you, I love you, I do. Whoa...

With this ring i'm bound

And I'll promise that I'll never let you down.
To family and friends and the Lord up above.
I will swear I'll be true to you,
And give you my love.

(Chorus)
Won't you give me forever to show
All of the love I have here for you.
And if you give me my reason for living
To love you, I love you, I do.
