Looking out I see  
And I know just how much you're a part of me  
I see you and I, together in life  
So there's nothing I wouldn't do,  
To make you my wife.

(Chorus)

Won't you give me forever to show  
all of the love I have here for you.  
And if you give me my reason for living  
To love you, I love you, I do. Whoo...

With this ring i'm bound  
And I'll promise that I'll never let you down.  
To family and friends and the Lord up above.  
I will swear I'll be true to you,  
And give you my love.

(Chorus)

Won't you give me forever to show  
All of the love I have here for you.  
And if you give me my reason for living  
To love you, I love you, I do.
