Honey what will it take, this time
To start a fight?
In your sad, swooping mind
It sends sparks on the inside
Flying out of sight

Just lean, just lean
Into the fall

How long, how long
Have you been sleepwalking?
Sleepwalking

This body shaped bruise
So Long was walking blind
It's too hard, there's too much to learn
It's too high and the rope burns

Dress smooth, dress smooth (?)
Into the mall (?)
It's too soon, it's too soon
To be sleepwalking

Just lean, just lean
Into the fall
How, how long
Have you been sleepwalking?
