I stole into the eyes of a boy singing the blues  
Hair jet black, he'd stars for shoes (?)  
Smoked his cigarette cos his lips had touched it  
And I found out soon  
He sure knew how to use a hotel room  
I could open my hands and let the rain come down  
But you're just too close to dream I had  
I'm scared, I don't know why I do  
But I miss you

He stood there restless, waiting for me  
Body hummed with colours I have never seen  
So we keep on burning like two stars in the same  
constellation  
Screaming through the air  
With a look like the light leaving  
He said 'I've known you for a thousand years'

I could open my hands and let the rain come down  
But you're just too close to dream I have  
I'm scared and I don't know why  
I couldn't watch you go  
I can't watch you go  
You know it sounds strange and untrue  
But I miss you

Girls on the streets, shine ruby lips  
Black straight hair from the tip to hip  
Brown eyes blazed under blue eyelashes  
Feel how you feel

Little girl watch out  
Little girl be proud  
Little girl get out  
Little girl watch out  
Little girl be proud  
Little girl get out  
Little girl watch out  
Little girl be proud  
Little girl get out
