So long, goodbye  
By order of the Pasadena court  
So long, goodbye  
Five hundred milligrams  
Held down by a pharmaceutical hand, goodbye  
Are needed everyday  
So we can regulate my uncontrollable urge

Remember me as I was  
Too much life, oh, and too much love  
Last week, my lastly stunning stunt  
Top tier, my jumping chandelier

That's why I'm here  
Amitriptyline  
Ami...  
Amitriptyline

I was a quiet, lunch box lonely little boy  
Reading sci-fi, broken treehouse on the shore

Nineteen, talking in my head got harder to understand  
No work, no school, drifting, a failing satellite  
Don't feel sorry for me, I've been happy too  
Manic, kindly, blinding, high-res euphoria

Please remember me as I was  
The crowning dove, the clowing judge  
Sad king alone in the western wing  
Holding foe's laughing, severed head

That's why I'm here  
Amitriptyline  
Ami...  
Amitriptyline
