Teeny tiny little teens  
Keep pouring out of my machine  
I just typed a word  
And I just pressed return

Someone makes this easy  
Someone makes this inevitable  
So for bring me here  
Bill Gates must die, must die

People stray  
Just dont say  
I'll never make it back  
Intact

Teeny tiny little teens  
Keep pouring out of my machine  
Backdoors  
Passwords galore

Only the hackers  
Only the feds  
Know just how far out I've been  
So for bringing me here
