Run with me  
We'll ride over the great cliffs  
Into the sea

We won't saddle up again  
We won't run the track again  
No more shots or medicine

Run with me  
Across gray lunar landscapes  
Into the sea

I'll stroke your mane  
As we fall through the sky  
Oh, broken horse, get ready to

Run with me  
We'll be such a beautiful sight  
To the people on the beach

With a great running leap  
Over rocks, over sand  
Oh we may never land
