golden gate park  
we walked our mondays there  
safe inside our replica

they have a garden there  
where climates of the world  
are laid out on a walking tour

you were my proof  
you were my wetsuit  
I will be okay  
if I can keep  
the things I love at bay

winter light  
falls through south america  
onto new zealand pines

ranger locked the gates  
I took cover under  
the dead wood and fragrant vines

you were my proof  
you were my wetsuit  
I will be okay  
if I can keep  
the things I love at bay
