You used to celebrate it
When I came in at 6 am
Ooh babe
I could never really fake it
Cause I was in love again
Love don't prove
Love don't prove I'm right
Love don't prove
Love don't prove I'm right
You used to sing and shout it
Showing me what you got
Ooh babe
I could never really doubt it
Cause baby you got such a lot
Love don't prove
Love don't prove I'm right
No no
Love don't prove
Love don't prove
Ooh you used to celebrate
Ooh now you have to wait

You're gonna wait
Love don't prove
Love don't prove I'm right
No no no no no no
Love don't prove
Love don't prove
If you need a hand to guide you
Let me be your northern light
You could give me all of your lovin'
And I'll make everything alright
Love don't prove
Love don't prove I'm right
No no no
Love don't prove
Love don't prove I'm right
Love don't prove
Love don't prove that I'm right
Oh yeah
