Dark the night and long til day  
Do not bid us further stray  
Dark the night and long til day  
Do not bid us further stray

Now the sun it does decline  
Pour the beer and pour the wine  
Let us lead your thoughts astray  
From the world and from the day

Dark the night and long til day  
Do not bid us further stray

We bring songs from history  
Love and war and mystery  
We can lead you from despair  
[A Singer's Request lyrics on ]Or can chill the  
darkening air

Dark the night and long til day  
Do not bid us further stray

And you can choose to pass us by  
With a cruel or a scornful eye  
We shall see the ending through  
Then we'll turn and say to you

Dark the night and long til day  
Do not bid us further stray  
Dark the night and long til day  
Do not bid us further stray  
Dark the night and long til day  
Do not bid us further stray
