We can wear the social fabric
Put on the make-up of society
We can champion the underdog
Be proud that we're not another cog
In the Blue Machinery
In the Blue Machinery
We all wanna do those things
But what's the point in a headful of something
What's the point in a headful of something
What's the point in a headful of something
If you've got a heartful of nothing
If you've got a heartful of nothing
